DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on June 24, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. patent No, 6,632,571 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 1-24 are allowed.
3. The following is an examiner's statement of reasons for allowance: none of the prior art of record is considered to teach, suggest or render obvious the invention of claims 1-24.

Applicant's filing of the aforementioned terminal disclaimer removes the obviousness-type double patenting rejections of Noh.

The closest remaining prior art of JP '940 fails to teach of the cross-linking agent as defined in the independent claims. The particular claimed cross-linking agent affects the structure of the end product polymer electrolyte.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
